Tectonics

A Big Shift Towards
Memory Safety

Sponsorship Prospectus

Overview

In relatively short order, the topic of memory safety has gained momentum from being an "objectively crazy" problem to one that's worth solving and well underway. ISRG's Prossimo project is shifting the conversation from "what if" to "how." Sponsoring Tectonics highlights your organization's leadership in moving the Internet towards a more secure future.

Sponsors will gain visibility through the following benefits:
